The Daily Press.

HONGKONG, OCTOBER 30TH, 1909.

Just before the late PRINCE ITO's departure from Japan for Manchuria we published a short summary of a speech made by His Excellency, in which he disavowed the suggestions in the Press that he was going to Manchuria on a political mission. The object of his visit, he said, was merely to acquire such a knowledge of the conditions in the territory as would enable him to form an intelligent judgement on any future Manchurian question. But notwithstanding this disavowal the belief persisted that the visit was one of large political significance. It is therefore of interest to notice that it was mentioned incidentally in the telegrams reporting the tragedy at Harbin that the Russian Finance Minister was at the station to meet His Excellency on arrival. It now appears that a general meeting of Russian and Japanese high officials had been arranged for at Harbin. If no agreements were to be made, it is evident that the Prince intended to obtain his knowledge of conditions from the very highest authorities on both sides. Japan had arranged for the presence

of Mr. KOKKE, Consul-General at Mukden, and Mr. KAWAKAMI, Consul-General at Harbin; and Russia, on her side, had instructed her Representative in Peking to visit Harbin, and wired to the President of the East-Chinese Railway also to repair thither. Naturally the Japanese public declined to believe in so many "mere coincidences," or that there was any other reason for the visit of the Russian Finance Minister to the Far East, than to discuss with Prince ITO the railway problems and other important matters relating to the administration of Manchuria. It is well known that PRINCE ITO favoured closer relations between Japan and Russia, and there can be no doubt that the conference, had it taken place, would have had a good effect on the relations of the two Powers, as it would have served to allay suspicion on both sides and have smoothed the way for an amicable settlement of all misunderstandings. The speculations in the Japanese Press as to the object of the Prince's visit to Manchuria are in strange contrast to His Excellency's own statement that it had no political significance. We read, for instance, that the belief prevailed in Tokyo that one of the objects of the visit would be to institute a change in the character of the Japanese administration in the leased territory and in Manchuria, by withdrawing the military and turning the administrative duties into the usual consular channels, as there has been a good deal of complaint in Japanese newspapers of the excessive cost of the present form of administration under a Military Governor-General. A Commissioner of the South Manchurian Railway was recently reported as advocating for Manchuria a government-general similar to that in Formosa, as being "a sheer necessity," and he is reported to have said that although there is an agreement which prevents Japan from doing this, he thought such an obstacle could be easily removed by diplomatic negotiations. Some attention has been given to this statement by the Chinese press as it conveys an impression that Manchuria was being regarded by the railway interests as a Japanese Colony, but we presume Dr. OKAMATSU was referring only to the leased territory. However, while such discussions were going on, it was only natural to suppose that the visit of the Prince was one of some political significance. Whatever the truth of the matter might be, we can be quite sure that the Japanese Government will not disregard so lightly as Dr. OKAMATSU suggests, the solemn declarations she has made regarding Manchuria. We can be equally certain that the Government will not yield to the popular clamour for the annexation of Korea as compensation or punishment for a crime committed by a misguided Korean. So opposed would such a step be to the policy which the late Prince laid down for Korea, that we can readily understand the report that the Government discountenances the agitation. When news of the Prince's death was first announced we said it was difficult to estimate the consequences of this sudden removal of so powerful a factor in the politics of Asia. It is curious to note in this connection the views which are now finding expression in the Chinese press. While they unanimously recognise that Japan has lost a statesman of the most commanding ability, it is disquieting to note that in the Canton papers the crime is not generally abhorred. Indeed the demise of the Prince seems to have given to the ultra-Nationalist organs a secret sense of satisfaction. They do not regard him as having been a friend of China; he is referred to as responsible for China's defeat in the war of 1895, for the annexation of Formosa, and for the triumph of Japan in the war with Russia, resulting in the acquisition of material advantages in Manchuria and in Korea. Some of the Canton papers have even gone so far as to extol the patriotism of the assassin. It is a disquieting sign of the times, and it occurs to us to suggest that the Chinese papers would be rendering the nation better service by holding up the late Prince ITO as a type of the statesman which China so badly needs.

Sir John McLeary Brown, C.M.G., Counsellor of the Chinese Legation, left London at the beginning of October for Wiesbaden, where he proposed to stay a month.

The prospectus of the Sungei Buaya (Sumatra) Rubber Company has been issued. The authorized capital is £75,000, and 35,000 will be offered.

An amusing incident took place at the Supreme Court yesterday. A certain case was called, and Mr. Hodgson and Mr. Davidson rose at the same time and practically simultaneously informed His Lordship that each appeared for the defence. The Puisne Judge said a date would be fixed for next week, and both solicitors simultaneously replied, "Very well, my Lord."

The total output of the Chinese Engineering and Mining Company's three mines for the week ending 16th October amounted to 27,413.19 tons and the sales during the period to 22,045.77 tons.

Subject to audit, the Directors of the International Cotton Manufacturing Co., Ltd., Shanghai, intend to recommend at the annual meeting of shareholders the payment of a dividend at the rate of 10 per cent. per annum for the year ended September 30, 1909.

When the case of J. E. Barker against W. D. Radburn was called at the Supreme Court yesterday His Lordship was informed that the plaintiff was dead. The plaintiff's solicitor said he was not aware of the fact, but added that he believed the other man was in hospital.

Twenty-five Chinamen who were delayed at Folkestone on 28th September were refused admission by the Emigration Board the next day. The annual Immigration Report for Canada during the last fiscal year shows that Japanese immigration fell off by 7,105.

Holders of First Mortgage (1901) Debentures in the British North Borneo Company have been informed that the whole of the undrawn balance, amounting to £41,700, will be redeemed six months hence; the whole of the 1903 outstanding bonds, amounting to £199,900, will be paid off on April 8, 1910.

H. E. Kuo Erh-shien, Commissioner to delimit the Macao boundaries, recently telegraphed to the Waipua saying that the boundary question is being amicably negotiated, but that it has been extensively rumoured that Portugal has intended to resort to hostilities. The Commissioner requested that no evidence should be given to such unfounded rumours.

At the Supreme Court yesterday Mr. S. Smith, Kowloon Dock, was sued by a house cools formerly in his employ for \$12 wages. It was stated that the plaintiff left the defendant's service without notice on the 1st September and was claiming for that month's wages. His Honour the Puisne Judge gave judgment for defendant.

A curious ground for action was mentioned at the Supreme Court yesterday, when it was stated that the defendant had committed trespass on plaintiff's property and painted his name in Chinese characters on certain granite stones belonging to plaintiff. Plaintiff's solicitor complained that the characters had been painted in tar on the stones and the tar could not be got off, and that the granite was rendered unsaleable. The hearing was fixed for next week.

We are asked to state for the information of the Roman Catholic Community that His Lordship Bishop Pozzoni, Vicar Apostolic of Hongkong, availing himself of the faculty accorded him by the Holy See, grants Plenary Indulgence to all who visit the Cathedral to-morrow (Sunday). The necessary conditions to gain this Indulgence are:—Confession, Communion, visit to the Church and a prayer for the intention of the Pope.

News from Lhasa is always difficult to obtain, and it is uncertain whether the Dalai Lama has yet reached the capital of Tibet. He was known to have left Sining early in June, his route being by way of Tankori and the Koko-nor, and it was anticipated that he would arrive at Lhasa by the middle of September. It will be interesting to learn the nature of his reception by the Lamas and the Chinese officials. It is, however, fairly certain, says an Indian paper, that he will never regain his old political influence in Tibet.

In conferring the degree of LL.D. upon the Hon. L. R. Willey, formerly Judge of the U. S. Court for China, President Y. Stanley Hall spoke of Judge Willey as follows:—"First Judge of the U. S. Court for China; opposed by organized corruption and attacked by slander, he yet restored to America by his strict enforcement of law, her damaged reputation in the Treaty Ports of China; an upright and fearless Judge; an incorruptible representative of what this country should mean and stand for in the Far East; Doctor of Laws."

A BANKRUPT PROSECUTED.

The case again came on for hearing before Mr. E. R. Hallifax, First Police Magistrate, at the Magistrate's yesterday, in which S. E. Allana was charged by S. A. Marican, of the Cycle Depot, Des Voux Road, with on May 1st embezzling a gold watch and chain; on May 15th a sum of \$250; and on August 25th obtaining a ticket for Calcutta by a false pretence.

Mr. Leo d'Almeida, a Castro (of Messrs. Goldring, Barlow and Morrell) appeared for the prosecution, and Mr. F. Paget Hett (of Messrs. Brutton and Hett) represented the defendant.

Mr. Almeida applied for a further adjournment, as Mr. Goldring, who had the conduct of the case, was absent.

Mr. Hett objected. He mentioned that there was a case anticipated against Moosa, and both cases were entirely distinct. The charge against Allana was a frivolous one, and could be disposed of in a few minutes.

His Worship—Is the other charge mentioned in the same prosecution?

Mr. Almeida said it was not. He understood his friend would proceed with the charge against Moosa, and if that case came on first it would prejudice the present one.

His Worship said that could be settled if he took one case and Mr. Wood the other.

The hearing was adjourned until Thursday afternoon, bail being fixed in the sum of \$500.

THE ASSASSINATION OF
PRINCE ITO.

Tokyo, October 29th.

A telegram from the Russian Minister of Finance to the Ambassador at Tokyo states that in his evidence at the inquest the Korean said that he went to Harbin specially to kill Prince Ito to avenge the wrongs of his country and also because Prince Ito had sentenced to death several of accused's relatives. He was happy in having succeeded. Consul Kawakami had asked the Russian police to allow all Japanese to enter the railway station and it was absolutely impossible to distinguish the murderer. The Russian Minister himself had a narrow escape.

INTERPORT RIFLE SHOOTING.

SINGAPORE'S RECORD AGGREGATE.

SINGAPORE, October 29th.

The Singapore team fired off in the Interport shooting contest to-day in the most favourable conditions. The total score was 955, the highest made in the history of the competition. Elliott and Galiston scored 99 each, the lowest score being 87.

[It looks as if the honours will fall to Singapore. The Hongkong team has not been doing so well this season, the aggregate hardly ever exceeding 930. The local marksmen will fire off either on November 3rd or 11th. Ten years ago Hongkong registered 952, which was the record until this year. Last year Singapore won with 937, Shanghai coming second with 923, Penang third with 910, and Hongkong last with 901.]

CONGO.

London, October 28th.

The Congo Reform Bill has been introduced in the Belgian Chamber of Deputies. It provides for the gradual opening of the whole of the Congo to free trade by 1912, with the exception of three million hectares. It proposes to reduce taxation and to gradually abolish forced labour. It also assigns thirty-three million francs for important works.

DANISH INTERESTS IN SIAM.

Prince Waldemar, brother of the King of Denmark, will leave shortly with his two sons for the purpose of paying a visit to the King of Siam. He will be accompanied by Mr. Andersen, the Director of the Danish East India Company, who will inspect the company's stations in Siam.

EYRE DIOCESAN REFUGE.

An event worthy of record was signalled yesterday afternoon when an "at home" was held at the Bellis-Reformatory. Here the Eyre Diocesan Refuge has been housed for some six or seven weeks, and the increased accommodation and better facilities for laundry work afforded by the new quarters evoked the approval of the visitors who went there yesterday. At present there are 41 girls in the institution, but there is room for half as many more, and the increased facilities are such as to enable the institution to undertake more laundry work and more needlework than the present demand.

After His Excellency the Governor had made an inspection of the premises, the Bishop of Victoria said he had been asked on behalf of the committee to thank His Excellency for his kindness in placing that institution at their disposal. For years the work had been carried on under difficulties in the inadequate premises at West Point, and mainly as a result of the keen interest taken in the institution by Lady Lugard they had been able to carry on the institution for the last two years. When it became necessary to remove, he approached His Excellency with regard to the Bellis-Reformatory, and the Governor kindly promised to inquire into the matter. He (the speaker) also interviewed Mr. Bellis, and the result was that that building had been placed at their disposal. In concluding he again thanked His Excellency for his interest in the institution, and also Lady Lugard who had taken a special interest in the Eyre Refuge.

HIS EXCELLENCY said that personally he did not deserve any credit for having put that building at the disposal of the Eyre Refuge. The building was there—it was being used as a branch-prison—and he thought it could not be devoted to any better purpose than that to which it was now put. It was originally intended as a reformatory for boys, but as there was no need for such an institution he thought the present purpose to which it was devoted was as near as they could get to the wishes of the founder, a view with which Mr. Bellis concurred. His Excellency added that he would have the greatest pleasure in telling Lady Lugard of the great improvement which the institution had undergone. Here they had a bright outlook, healthy surroundings and plenty of room, and he would have much pleasure in telling his wife of the progress which had been made by an institution in which she took such a keen interest.

This concluded the proceedings.

FIREMEN AT PRACTICE.

There was a strong muster of European and Chinese firemen on the compound of the Central Police Station yesterday afternoon when a rehearsal was held in connection with the forthcoming competition of the Fire Brigade. It is expected that the competition will be witnessed by a large number of the Governor. Yesterday's practice took place in the presence of Captain F. J. Buley and F. W. Lyons, Mr. P. J. Wodehouse and Superintendent Lane. The firemen manoeuvred with the extension ladders, the despatch boxes, the hydrants, the hose and the reels. Ladders were run up to first and second floors of the Police Station and scaled by firemen with hose ready for action. Divisions then showed what they would do to combat a fire which had gained firm hold of a building, the different sections taking the posts which would be necessary in case of fire. On the whole, the brigade put up a creditable performance, the coupling of hose to hydrant, the erection of the ladders and the ascent of the men being carried out with the celerity necessary in cases of emergency.

SMOKING IN COURT.

An incident which relieved the monotony of the proceedings of the Supreme Court occurred yesterday morning. Suddenly the usher was seen to rush forward into the body of the Court and in a few seconds he returned pushing a reluctant Chinaman in front of him and holding in his disengaged hand a smoking cigarette. The offender was taken in front of the Puisne Judge, who was informed by the usher that he had discovered the man smoking a cigarette in Court. The culprit asked his Lordship to forgive him. "Where does he come from?" asked the Puisne Judge. "Canton," was the reply. "Tell him he has shown very bad manners," added his Lordship, who subsequently told the usher to throw the cigarette away, but to return the man his cigarette holder.

HONGKONG AND SHANGHAI BANK.

QUESTION IN PARLIAMENT.

In the House of Commons a month ago Mr. Bellairs (King's Lynn, Min.) asked the Secretary of State for Foreign Affairs whether, in view of the support which the Foreign Office had given to important negotiations to the Hongkong and Shanghai Bank and the recent action of the bank in connection with a proposed railway loan, of which the terms were at variance with the preferential rights assured to this country in regard to the Hankow-Canton and the Hankow-Seochuan railways, as well as with the agreement of 1898 between the bank itself and the Deutsch-Asiatische Bank, the Government would make it a condition of future British support that the members of the committee in London, the directorate in Hongkong, and all holding positions of trust in the bank should be British subjects.

Mr. McKinnon Wood (Glasgow, St. Rollox, Min.) who replied, said:—"The rule in such cases is that support is afforded, when it is otherwise desirable, to companies in which the preponderance of shares is held by British or naturalized British subjects. I am therefore unable to make the condition desired."

POLICE INTELLIGENCE.

Sentence of six weeks' imprisonment with hard labour was passed on the Chinese sail-maker of the steamer Asia by Mr. Wood for stealing two bolts of canvas valued at \$50.

Inspector Goursley prosecuted three shopkeepers from Jubilee Street for trading with unjust scales. Mr. Wood fined two of the defendants \$50 apiece, and the third was mulcted in the sum of \$25.

A European named O'Connor was charged before Mr. J. R. Wood at the Magistrate's yesterday with being drunk and disorderly, and with damaging property at 212, Queen's Road Central. The defendant was fined \$4, and ordered to pay \$1 compensation.

The two natives who were charged by Inspector Dymond with carrying explosives without a label, and with being in unlawful possession of 55lbs of gelatine, again appeared before Mr. J. R. Wood yesterday. His Worship, after hearing the evidence, fined each of the accused \$100.

The hearing of the charge against two mafiosos, of behaving in a violent manner and assault, was concluded before Mr. J. R. Wood yesterday. His Worship found the evidence too conflicting to enable him to come to a decision, but said he would bind both defendants over in the sum of \$100 to be of good behaviour for six months.

A Chinese woman, the tenant of 127, Temple Street, Yau-nan, appeared before Mr. E. R. Hallifax at the Magistrate's yesterday for declining to vacate her house after receiving due notice from the owner. The defendant, it appears, sub-let part of the house, and although she received a monthly rental she has not paid the owner any rent for the last six months. As she declined to inform his Worship when she would be ready to leave, the Magistrate made an order for her ejection.
